

AEL CORPORATE PROFILE

Company Overview

- IT service provider specialising in Web and System application development, Mobile apps development, ePublishing, eBooks development, eLearning and Digitisation.
- Established in 2001 and headquartered in Chennai, India.
- 600+ professionals with over 10 million man-hours of experience in creating and converting digitized content.
- Working with Publishers, Governments, Universities and Libraries across the globe.
- Robust Data Security and Protection.
- ISO 9001:2008 (QMS) and ISO 27001:2005 (ISMS) certified.
- Three state-of-the-art development centres in India and customer service offices in the US, Malaysia and UK.

“ I very much appreciate all of the work that AEL is putting into this project. I truly appreciate that AEL is committed to excellent quality and I know that, as mentioned, if AEL and LAC can put in that extra effort for accuracy we will both benefit given the high visibility of this project. As such, I'm very thankful that you are very easy to work with and understanding of the current situation. It has been a pleasure to work with you and others on the AEL team. ”

- Kyle Brownness, Library Archives of Canada

Arabic eBooks
Audio books

“

On reflection, and having worked more with the transcriptions, we remain very impressed with the quality overall - especially the dates that you have managed to pull out of the manuscript - which still surprises us in some cases how you managed it!

”

- Ed Fay, The London School of Economics and Political Science

“Wow we never thought it would work so smoothly, AEL DATA being based in Chennai, India & we at Kinshasa, D.R, Congo, central Africa. You are extremely professional in your work. You are good in communication, creativity, client service, planning & executing our needs & ideas, good in time management hence able to meet deadlines. It proves a point that physical distance between the clients doesn't matter as long as you are working with thorough professionals.

Keep up the good work

”

- Murali, Nova Products Congo

Our Expertise

Our expertise, efficient processes and the ability to understand our clients' needs enables us to stand out as one of the most highly regarded IT and ITES services providers in the industry. Over the past 10 years, we have been working with customers worldwide to offer innovative cost-effective solutions and services that enhance productivity.

AEL is a technology-driven company with an in-house team of software engineers skilled in Microsoft, PHP, VB, PERL and Java technologies. Our IT team is developing software tools that enable us to provide value to our customers by reducing costs and delivering on time.

“ As you are aware, our core competency is in the technical / engineering sector and there is presently a lack of quality, locally - authored content in South Africa – a situation we hope to remedy! Quite obviously, we would agree to sub-contract any conversion development to AEL as I have had only the best possible service from 'my team' over there.

- Val Carter, Tricad Technologies
